

# Fort Wayne Parks & Recreation Inclement Weather Policy

When Fort Wayne Community Schools close due to inclement weather, all daytime and evening programs and classes scheduled at the Community Center or in a public school will also be cancelled. For meetings or programs in which a group or organization uses the facility to gather, please contact the group leader to confirm the status of the meeting. If a class or program is being held at an outside private facility, that facility must be contacted to verify if they are still having classes.

The Community Center, however, will remain open to the public for unstructured Drop-in programs. If the mayor declares a city-wide weather related emergency, all Parks and Recreation facilities, including the Community Center, will be closed. For other weather-related program cancellations and questions, please call the Fort Wayne Parks and Recreation Department Community Center at 427-6460.
